Medical terminology

is a special vocabulary used by health care professionals for effective and accurate Communication

Derived from Greek and Latin

Kidney  Nephr  Ren
• Most English words used today were not originally English. These words were adapted from other language, such as Latin and Greek.
• It can be helpful to know some of these roots of English vocabulary. It may be possible to guess the meaning of an unknown word when one knows the meaning of its root.
• Knowing prefixes and suffixes can also help.
Example

Gastro, duoden, o, stomy

stands for “a communication between the stomach and the first part of the small intestine
How to read a medical text

- Review the text rapidly
- Understanding field of the text
- Find the main phrases and words
- Analyze the main phrases and words
- Read the text precisely
- Make an abstract in your mind
- Remember the main message
- Rewrite the text briefly
An English word can consist of three parts:

- **The root** is the part of the word that contains the basic meaning, or definition of the word.
- **The prefix** is a word element placed in front of the root, which changes the word's meaning or makes a new word.
- **A suffix** is a word element placed after the root, which changes the word's meaning as well as its function.
Common Prefixes

- **Pre** = before  →  *preview*
- **un** = not  →  *unavailable*
- **dis** = not  →  *disagreed*
- **re** = again  →  *renew*
- **Mis** = not  →  *mismanaged*
- **Im** = not  →  *impossible*
- **Bi** = two  →  *bifocals*
- **De** = not  →  *deforestation*
Common Suffixes

- **-er** = doer → programmer
- **-able** = able → recyclable
- **-ous** = full of → dangerous
- **-ness** = state of being → darkness
- **-ful** = full of → truthful
- **-ly or –y** = like → happily
- **-ment** = state of → contentment
Words Ending In X

- When a word ending in *x* has a suffix added, the *x* is changed to a *g* or a *c.*

  *pharynx* (throat) becomes *pharyngeal* (*fa-RIN-je-al*), to mean “pertaining to the throat”;

  *coccyx* (terminal portion of the vertebral column) becomes *coccygeal* (*kok-SIJ-e-al*), to mean “pertaining to the coccyx”;

  *thorax* (chest) becomes *thoracotomy* (*thor-a-KOT-o-me*) to mean “an incision into the chest.”

Suffixes Beginning With *rh*

- When a suffix beginning with *rh* is added to a root, the *r* is doubled:

  *hem/o* (blood) + -rhage (bursting forth) = hemorrhage (a bursting forth of blood)

  *men/o* (menses) + -rhea (flow, discharge) = menorrhea (menstrual flow)
